DETAILED ACTION

1. This action is responsive to the correspondence filed on October 26, 2005.

Claims 1,3-6 and 8-12 represent information distribution method and system.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Louis on January 11, 2006.

The application has been amended. Claims 11 and 12 are amended.

On claims 11 and 12, change "A computer program product for permitting a computer to perform:" on lines 1-2 to "A computer readable medium containing one or more programs which permits a computer to perform the following steps:", and delete "a function for" on lines 3, 4, 6, 8 of claim 11, and on lines 3, 4, 8, 11, 13 and 15 of claim 12.

Allowable Subject Matter

3. Claims 1,3-6 and 8-12 are allowed.

4. Pursuant to 37 C.F.R. 1.109 and M.P.E.P. 1302.14, the following is an Examiner's Statement of Reasons for Allowance:

The prior art of record fails to teach or suggest individually or in combination the claimed limitations of "said first information processing apparatus recording first information for a user; said second information processing apparatus recording second information for said user; said first information processing apparatus, while referring to said first information, generating a single first choice or multiple first choices concerning said information; said second information processing apparatus receiving said first single or multiple choices from said first information processing apparatus via said network; said second information processing apparatus, while referring to said second information, selecting as a single second choice said single first choice or selecting multiple second choices from among said multiple first choices concerning said information; said second information processing apparatus requesting that said first information processing apparatus obtain part or all of said information correlated with said single second choice or said multiple second choices; said first information processing apparatus transmitting said requested information to said second information processing apparatus, and said second information processing apparatus
